New physicians recruited to Parkland

Dauphin- The Parkland Regional Health Authority (PRHA) is pleased to announce that two new physicians have been successfully recruited to the communities of Roblin and Swan River. The two physicians have successfully completed the provincial Medical Licensure Program for International Medical Graduates (MLPIMG).

PRHA Chief Executive Officer Allan Bradley says the two new doctors will help bring up the physician complement in areas of the Parkland that have recruitment challenges, high turnover rates, or pending retirements.

“The PRHA is pleased to welcome the two new doctors to Roblin and Swan River and the entire Parkland area. The provincial IMG process provides the PRHA with another recruitment tool when it comes to attracting and retaining physicians within our Region,” Bradley added.

In Swan River, Dr. Fawzey Girgis is set to begin practice the week of October 9th. Dr. Tesfay Ghebray will begin practice in Roblin in early November
