"Individuals, families and communities achieving the best possible health and wellness"

The *Parkland Regional Health Authority* is situated in West Central Manitoba. Approximately 34,000 sq. kilometers, it is bound on the west by the Saskatchewan border, on the North by the 53rd parallel, on the south by Riding Mountain National Park, and on the East by Lake Manitoba and Lake Winnipegosis.

The Region has spectacular natural beauty. Along the western border of the Region lie three upland areas which form part of the Manitoba escarpment.

Riding Mountain National Park,

Provincial Parks at Manipogo on Lake Manitoba and Rainbow Beach on the southern edge of Dauphin Lake as well as Provincial and Municipal Parks throughout the Duck Mountains and the Porcupine Mountain Forest bring our environment close to everyone in the Region.

The regional population is 42,000, approximately 4% of the provincial total. The major economic industries and employers within the region are agriculture, forestry, construction, manufacturing, retail trade, health and social services, government services, and education.

What is the PRHA?

The **Parkland Regional Health Authority** is an accredited Regional Health Authority comprised of a fully-integrated health care delivery system.

The PRHA offers a complete range of health services and programs inclusive of Health Promotion and Education, Primary Health Care, Public Health, Home Care, Mental Health, Emergency Medical Services, a wide range of Surgical and Medical Services, Critical Care, Maternal Child, Long Term Care, Rehabilitation and Diagnostic Services.
